BOOK SYNOPSIS

Doodled Blooms: A Hand Drawn Coloring Book of Fantastical Flora For Everyone is the first coloring book by artist, Michelle M. Johnson. A lifelong coloring enthusiast, Michelle's illustrations are drawn with the sole purpose of being fun, engaging and relaxing for everyone to color. Within the hand drawn imaginary blooms you will find patterns and petals aplenty that have been illustrated so that challenged eyes can color with confidence, young hands can color without frustration, busy minds can color in relaxation, and everyone can have fun expressing their creativity. As proof of this intention, the back cover of Doodled Blooms is covered in 20 beautiful colorings of the first page of the book, colored by folks ranging in ages from 7 to 77! Designed for maximum coloring enjoyment, most of the images go all of the way to the outer edges of each page. There are also horizontally as well as vertically oriented drawings, although you, the colorer, are welcome to color from whatever direction you wish! Doodled Blooms is a collection of 16 illustrations, printed on one side of the page only, a book that is just the right length to enjoy every detail. Also included is a brief annotation for each drawing, giving you an inside look at the process that went into the creation of this unique and fanciful coloring book.
