## **BOOK SYNOPSIS**

"Developed at Philadelphia's famed Wills Eye Institute, the series presents unmistakable guidelines for the differential diagnosis and treatment of the full range of ophthalmic problems. For each condition there are photographs coupled with salient points of epidemiology, history, physical examination, differential diagnosis, laboratory and special examinations, disease course, and up-to-date treatments. The Series is a unique combination of text, quick reference, and color atlas, covering every essential sub-specialty in Ophthalmology including pediatrics. Each title features more than 150 color illustrations throughout and a short, succinct format which in most cases, includes: Epidemiology and Etiology, History, Physical Examination, Differential Diagnosis, Laboratory and Special Examinations, Diagnosis, Prognosis, and Management. The book is designed as an aid to the diagnosis and management of Vitreoretinal disease in the care of patients and as a resource for the student and trainee"--Provided by publisher.
